DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 11/4/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Patent 6460437 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive support in the application disclosure as originally filed. The primary reason for the allowance of the claims is the presence of limitations in the independent claim(s), which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, the prior art fails to disclose and/or make obvious a method of producing first and second aspheric surfaces on a precision optical element having a radial dimension, comprising the steps of: forming said first aspheric surface on said element; forming on a vacuum chuck, a support surface having a width in its radial

direction less than 50% of said radial dimension of said element, and having an aspheric form matching that of said first aspheric surface formed on said element. Specifically, the limitation “ and subsequently forming said second aspheric surface on said element while it is held with said first aspheric surface in said vacuum chuck “ in the claims is absent from the prior art teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Willmon Fridie whose telephone number is 571 272 4476. The examiner can normally be reached on Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer Ashley can be reached on 571 272 4502. The fax phone number for the organization where this application or proceeding is assigned is 571 273 8300.
